

XDocs the eXtensible CCMS

Create, manage and deliver content faster and more intelligently from the world's first eXtensible Component Content Management System

XDocs CCMS is a standards compliant single-sourcing solution that enables everyone within the organization to create, manage, store and **intelligently publish large volumes of both XML and non-XML content.**

The first truly eXtensible Component Content Management System, XDocs will connect all your data sources, making them accessible to everyone involved in the content lifecycle. Creating new opportunities for collaboration and enabling customer specific delivery across any device or platform and in any language.

Our **competitive pricing** model enables organizations of all sizes to realize the benefits of a flexible and adaptable enterprise class platform. Our **rapid deployment** methodology means teams will soon be up and running.

End-to-end

XDocs provides a complete solution. Your content team can create, review, find, update, manage, localize and deliver content with unparalleled agility.

Solutions for all your content challenges

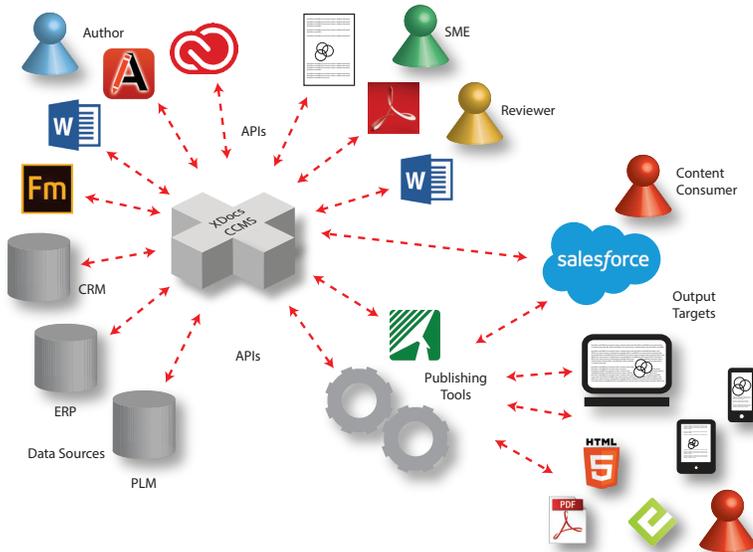

Delivering content for different audiences, languages, and publish outputs is easy. Delivery is agile, automated, and responsive.

Easy-to-deploy

Out-of-the-box XDocs is fully functional and feature rich. Customization is simple and it can be installed and deployed in hours.

XDocs CCMS the flexible solution

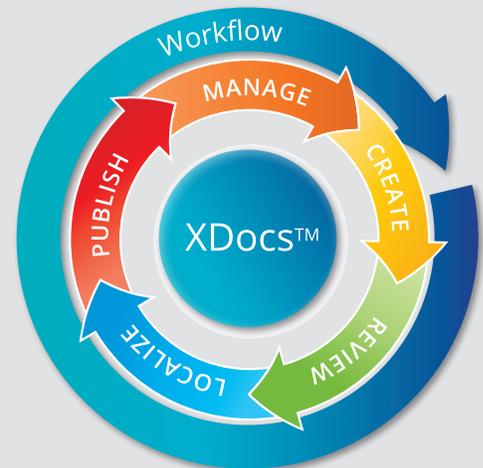

Unite all your data sources and bring them into the content creation lifecycle

- eXtensible – more scope and options than any other CCMS platform
- Able to curate non-XML content
- Comprehensive open APIs
- Already integrated with Salesforce and numerous other systems i.e. ERP, PLM
- Easy to use browser tool for SMEs
- Modular system to control costs
